

Assignment Seven Part B Requirements

Assignment Date: Week 9

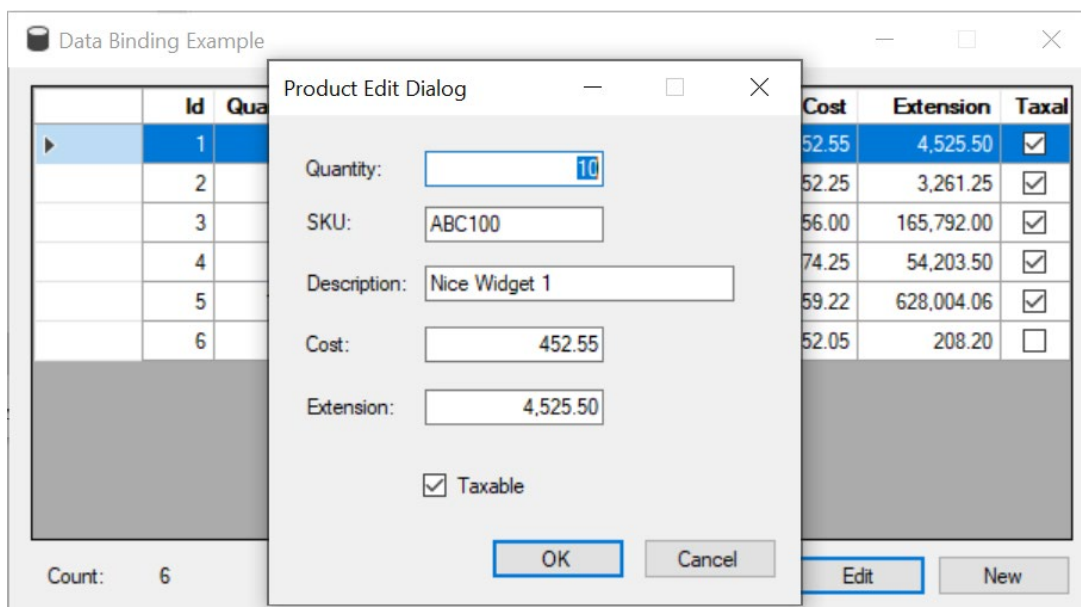

Due Date: The day before Week 10 (Parts A and B together) @ 11:59 PM

Assignment Objective

The purpose of this assignment is to work with dialogs. The records can now be edited in a Dialog.

Your Task

- 1) Update the UI to use an edit dialog. Note there is still no need for a “New” button yet.

- 2) Note that the easiest way to do this is to pass a reference of the view model to the dialog form, then copy/paste the controls to the main form in design view and copy/paste the bindings from the main form in the code behind.

For all your code, be sure to:

- Comment your code intelligently (no need to comment the obvious)

Marking Criteria:

- Design/Data Classes (8 marks)
- Databinding/View Model (5 marks)
- UI (10 marks)

C# Application Development

- Coding Style (2 marks)
- Total - out of 25 marks

Please Hand In:

Zip the final version of your entire project and upload the zipped file to the Assign07ab Dropbox in the Learning Hub (**In Week 10**)
