

Lab Five Instructions

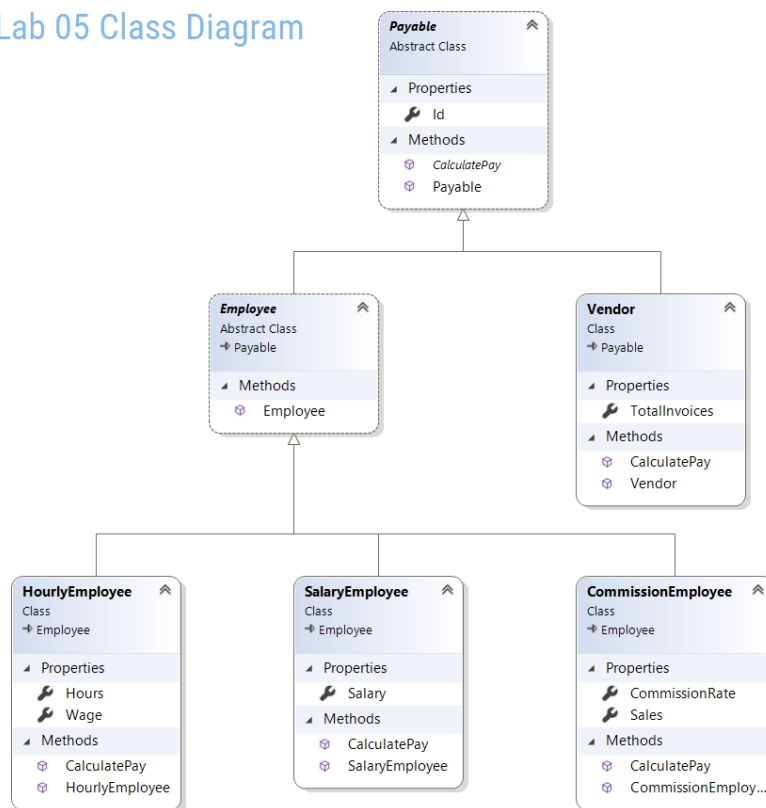

Objective

The purpose of this lab is to practice building an object hierarchy.

Details

- i. Create a Visual Studio C# Console project named **COMP3602Lab05**.
- ii. Rewrite the Polymorphism Demo Project to use a three-level object hierarchy rather than an interface. (See class diagram below)

Lab 05 Class Diagram

Please Hand In:

- 1) Zip your entire project and submit the zipped file to Lab05 in Learning Hub.
- 2) Lab is due on the day before next week's class @ 11:59 PM.
- 3) Lab solution code will be available under Weel05\In Class once you have submitted.
