

**Online Assignment 3 Requirements (Optional Assignment – *bonus marks*)****Assignment Date:** Week 11**Due Date:** Day before next class @ 11:59 pm**Assignment Objective**

Have fun and practice building a Windows Forms application

**Your Task**

Write a windows forms application that does anything you want.

Though, it must:

- Implement at least one control that was learned in the Online lectures that has not been used in an assignment yet (ie you can't use a ComboBox to meet this requirement)
- Implement at least one data class
- Implement good Separation of Concerns
- That's it, the rest is up to you.

**Please Hand In:**

1. Zip the entire application and upload the zipped file to OnlineAssign03 in the Learning Hub.
